The secretary presented three resolutions approved by the Council for the consideration of the association. The resolutions were as follows:

In view of the increased responsibilities of the association and the multiplicity of tasks in which it is engaged and in view of the special report of the committee on policy,³ it is, in the opinion of the council, highly desirable that the association make provision for the establishment of a permanent secretariat and that the council be authorized to take such steps toward that end as may be practicable.

The council recommends to the association to meet in Minneapolis in 1931.

The American Historical Association expresses its great satisfaction at the measures which have been taken by the Public Buildings Commission and the Congress to provide a suitable repository for the archives of the United States. With deep appreciation of the desirability and the necessity of careful study in the planning of such a national archive building and in the administration of its priceless contents, the association authorizes and instructs its executive council
