Negro Slave Songs in the United States

By the Reverend Miles Mark Fisher, Pastor, White Rock Baptist Church, Durham, N. C. Negro spirituals and songs yield meaningful historical data respecting their authors, their dates, their places of origin, and their messages when viewed in the light of Mr. Fisher's study. An important addition to the history of American culture.

ANNOUNCING

another outstanding contribution to the study of American history by the author of *The Stream of American History . . .*

Recent American History

Leland D. Baldwin, University of Pittsburgh

In this readable new book, Dr. Baldwin concentrates upon the political, social, economic, and cultural picture of the United States as it has developed from the end of World War I to the armistice in Korea. He treats world conditions rather fully to help the student make a fair appraisal of this country in relation to other countries. The student is made especially aware of the backgrounds for actual and potential racial, cultural, economic, and political conflict, not only in Europe, but in Latin America and Asia as well. The book is written in the same lively and vivid style that delights students using *The Stream of American History*. There are 29 charts, 56 maps, and 44 cartoons to supplement the text.

The Stream of American History

Volume One • Volume Two

Leland D. Baldwin, University of Pittsburgh

"It is an excellent text, rich not only in the major facts, but also in much of the incidentals on which the accounts of the development must rest, though often omitted from smaller general histories. The wealth of maps, charts, and cartoons adds to the clarity of the presentation."

Mark Mohler, Skidmore College

Coming this spring

by the author of

Europe from the Renaissance to Waterloo
and *Europe in Our Time, Revised*

ROBERT ERGANG

EUROPE SINCE WATERLOO

An important new text by a noted historian and writer... This extremely well-organized history presents vital events from Waterloo through 1953 in proper perspective... Treatment is both chronological and topical—major political events and great general movements... The whole forms a smooth story, simply and lucidly written, of European developments in the hundred and fifty years covered.

Cultural history appears in sections of those chapters which treat various countries at important periods of their political history... In addition, there is a separate chapter on Romanticism and one on scientific development.

The text is liberally supplied with maps and halftone illustrations, and there is a selective bibliography at the end of the book.

Announcing for January publication

The New, Revised Fourth Edition of

Western Civilizations

Their History & Their Culture

By EDWARD McNALL BURNS

The new fourth edition of this widely-used basic text presents a thoroughgoing reorganization, revision, and revaluation of materials throughout the book. It has been prepared in response to detailed suggestions and recommendations of history instructors who have used it with enthusiasm but who have recognized that certain changes in emphasis, coverage, and organization would make it an even more valuable text.

Here are some of the new features of the fourth edition:

- a complete new chapter on primitive cultures incorporating the latest authoritative findings of historical and anthropological research.
- an expanded treatment of the medieval period.
- a new chapter dealing with political and institutional development in the United States.
- a complete reorganization of the material on Occidental civilization in the nineteenth and twentieth centuries.
- a new, final chapter on contemporary culture bringing the coverage completely up to date.
- new maps, new illustrations, and brief chronological summaries in tabular form.

In preparing this new edition of *Western Civilizations* Professor Burns has held strictly to his original purpose—to include in a single comparatively short volume a unified and readable account of the development of our civilization from the primitive cultures to the present. Even with the expanded coverage of the fourth edition the text is briefer and less encyclopedic than most. Yet every important period is treated clearly and with sufficient fullness to bring home its significance to the student.

The Collected Works of Abraham Lincoln

ROY P. BASLER, *editor*. **MARION D. PRATT** and **LLOYD A. DUNLAP**,
assistant editors.

This is the life record of Abraham Lincoln. The first eight volumes contain virtually everything Lincoln left in writing—nearly 7,000 letters, speeches, memoranda, and other documents, almost 50 per cent of which never before published in any collection. "With the publication of **THE COLLECTED WORKS OF ABRAHAM LINCOLN** we have for the first time a truly definite edition of the writings of our foremost statesman." David C. Mearns.

SOUTHERN NEGROES: 1861-1865

By BELL I. WILEY

EMORY UNIVERSITY

This book covers a neglected but important phase of American history: Southern Negroes in transition from slavery to freedom. It treats the life of the Southern slaves during the war, what they thought of the Northern invaders, how they reacted to freedom, what they ate, what they wore, their religious life, their songs, their labor on farm and in factory, their plight as wards of Uncle Sam, their role as fighters in the Union Army. This useful study is a reissue of an earlier edition published by Yale University Press. *Probably 384 pages, \$5.00.*

Russia: A History

HARCAVE

A concise presentation of Russian history successfully blending the topical and chronological orientation in this increasingly important field. The text is divided into five consecutive periods, each representing a unified aspect of the country's development: Growth of People and Polity, Consolidation and Expansion, Bureaucratic Russia, Russia in Transition, and Communist Russia.

Modern and Contemporary Latin America

BERNSTEIN

A highly descriptive account of Latin America as told through the history of five leading countries: Mexico, Argentina, Brazil, Chile, and Colombia. The skillful use of cross references shows the parallel development of these nations.

This Age of Global Strife

HARRISON

Written in a narrative style, THIS AGE OF GLOBAL STRIFE presents a sound, historical account of the world's major events of the immediate past, which gave meaning to most of today's world problems.

Documents and Readings in the History of Europe Since 1918—Revised

The Making of English History

A superb collection of seventy essays, most of them hitherto unavailable to students, which present an unusually broad view of English history—political, constitutional, social, economic, religious, literary, and intellectual. *Edited by R. L. Schuyler and Herman Ausubel.*

The Making of Modern Europe

"You have come as near to solving the problem of effective outside reading for college classes in European History as can be done," writes Geoffrey Bruun of this two-volume collection of essays. *Edited by Herman Ausubel.*

The Making of American History

In this widely adopted text, Donald Sheehan has compiled essays by twenty-seven of our most distinguished historians. Selections not only illuminate all phases of American history but also illustrate the contributions of such writers as Parkman, Becker, Beard, Turner, Nevins, Lynd, and Webb.

Some Modern Historians of Britain

Compiled in honor of R. L. Schuyler, this *Festschrift* contains essays on twenty-two modern British historians, invaluable to teachers and to students of Historiography and English History. *Edited by Herman Ausubel, J. Bartlet Brebner, and Erling M. Hunt.*

The Journal of Charlotte Forten

One of the three known diaries written by free Negroes in the pre-Civil War period, this "find" possesses unique interest for students of American political, social, and cultural history. *Edited, with introduction and notes, by Ray Billington.*

Economic Forces in American History

Devoting more than half the book to twentieth-century developments, George Soule traces each important theme both "vertically," as it unfolds, and "horizontally," to demonstrate the interrelationship of forces. "By far the best introductory economic history of the United States that I have read," says Prof. Jack Taylor.

CURRENT TEXTS IN AMERICAN HISTORY

A SHORT HISTORY OF AMERICAN LIFE

By NELSON MANFRED BLAKE, Syracuse University. 732 pages, \$5.75.

Set against the dynamic pattern of the transfer of European institutions to American soil and the resultant modifications of Old World heritage, this outstanding study achieves within the bounds of a single volume a synthesis of American economic, social, and cultural history. Will lead to a clear and incisive understanding of the social and cultural patterns which have influenced the development of this country.

HISTORY OF THE AMERICAS. VOLUMES I and II

By THE REV. JOHN FRANCIS BANNON, S.J., St. Louis University.

Two exceptional volumes which represent a simple, clear, and skillfully organized account of the history of the nations of the Western Hemisphere since discovery. Both volumes reflect Father Bannon's conviction that the history of the nations of the "New World" is an integral part of the broader story of Western Civilization and should be treated as such.

Volume I. (582 pages, \$5.50) carries the story through the imperial period to nationhood.

Volume II. (568 pages, \$5.50) completes the narrative of the development of the American countries to the present. Emphasis is again on the "family relationship" between Europe and the West, showing that the various revolutions broke merely political ties, while economic and cultural bonds continued strong.

ECONOMIC DEVELOPMENT OF THE UNITED STATES

By J. R. CRAF, University of Louisville. 580 pages, \$5.00.

A text for one-semester college courses in the economic history of the U. S. The topical approach is used for the period to 1860; the chronological approach is followed thereafter. The student is introduced to the subject through consideration of the characteristics of the American economic system, its advantages, shortcomings, and peculiarities. Subsequent chapters trace the rise of American economic life from the period of discovery and exploration to the Korean War and remobilization.

Wayne S. Cole

AMERICA FIRST

THE BATTLE AGAINST INTERVENTION, 1940-1941

The first objective account of the most powerful mass pressure group engaged in the struggle to keep the United States out of World War II. After carefully examining all the records of the group and the private papers of many of the prominent members, Mr. Cole presents a complete history of the organization from its inception to its dissolution. A book covering the events of our own time for all who are interested in the foreign policy of our nation and essential for anyone seeking a knowledge of the events leading to World War II. **306 pages. \$3.50.**

Paul Knaplund

JAMES STEPHEN

AND THE BRITISH COLONIAL SYSTEM, 1813-1847

An account of James Stephen's thirty-four years in the Colonial Office during a transition period in the history of the Empire. Under the impacts of the Industrial Revolution, the general international situation and the new reforming ideas of the nineteenth century, changes and modifications in the organization and administration of the colonial system were inevitable. The direction these changes took were in no small measure due to James Stephen, legal counselor in the Colonial Office and ultimately undersecretary for the colonies, who exerted a profound and far-reaching influence on the basic ideas which have shaped the British Commonwealth and Empire. **326 pages. \$5.50.**

A. A. Vasiliev

HISTORY OF THE BYZANTINE EMPIRE

Unavailable for many years this standard history of the Byzantine Empire now appears in a new and revised edition. Part of the text has been rewritten, notes have been brought up to date, and a long and useful bibliography has been added. This history shows the foundations being laid for much of the modern Western world, especially its system of laws, its art, and its religion. The sections in each chapter on literature, learning, and art are masterly summaries of intellectual and cultural trends as the centuries unfold. **850 pages. \$10.00.**
