A STUDY IN PRIVATE ENTERPRISE AND PUBLIC POLICY: 1862-1906

By ARTHUR MENZIES JOHNSON, *U. S. Naval Academy*

"A volume that contributes much to our knowledge of the growth of American industrial might. . . . This highly specialized volume is of great significance to any study

of the conflict between private enterprise and public interest during America's early industrial growth."

Colonists from Scotland

EMIGRATION TO NORTH AMERICA: 1707-1783

By IAN C. C. GRAHAM

Dr. Graham's study shows why emigration was attractive to the Scots, their role in the life of early America; in particular their influence on politics, commercial development, and cultural and pro-

fessional life. One point brought out by Dr. Graham is that most Scots, contrary to what has been thought, were loyal to Britain during our Revolution.

Professors and Public Ethics

NORTHERN MORAL PHILOSOPHERS BEFORE THE CIVIL WAR

By WILSON SMITH, *Princeton University*

What was the place of the moral philosophers in the academic and practical world of their day? What was the nature of their social ethics? Did they have a real voice in public affairs? What brought about

the decline of their influence? Professor Smith discusses these questions, and takes up the beliefs and careers of some of the leading moral philosophers.

JOB REGISTER: At the meeting the services of the Job Register will be available. Candidates for positions may register and departmental representatives seeking staff members may make inquiries. The Association will assist in arranging interviews. Departmental representatives will facilitate arrangements by informing Association headquarters of their needs before the meeting and each candidate should inform the Job Register of his presence and address as soon as he arrives in St. Louis.

REUNIONS: Information concerning group reunions will be posted on the bulletin board at the Bureau of Registration and Information. Groups desiring to hold such functions should communicate with the Chairman of the Committee on Local Arrangements as soon as possible.

MEETINGS OF OTHER GROUPS: Some historical societies or groups have arranged special sessions which cannot be listed in the general program. Mimeographed announcements will be available at registration when these are supplied to the American Historical Association.

RELIGIOUS SERVICES: A listing of religious services in St. Louis may be found in the main lobby of the Sheraton-Jefferson Hotel.

A History of the Modern World

Second Edition, Revised

by R. R. Palmer, *Princeton University*

with Joel Colton, *Duke University*

"I consider Professor Palmer's *A History of the Modern World* the best textbook in existence in the field. It excels in wealth of information, in thoughtful interpretation and excellent organization and presentation. The new edition with its revised maps and guides to the reader will make it even more useful in the hands of teachers and students."—HAJO HOLBORN, *Yale University*

"This book achieves a level of sophistication and literary excellence previously unmatched in the history of American textbook writing. Political history in the broadest sense is neither a catalogue nor a collection of fatuous homilies, but rather a synthesis of European history in a world framework, based upon well integrated materials which in turn are drawn from a wide range of knowledge."—GEORGE RUDISILL, JR., *Wayne University*

A History of the Modern World

by Joel Colton

"Excellent student aid. It provides needed organization and study techniques for the beginning student. With this guide, learning history will be made easier for the student."—JACK BAUMBAUGH, *Pierce School of Agriculture*

"Most useful, especially the Key Discussion Sentences. For the period after World War II there is, I believe, no good study guide anywhere except in this particular volume."—ROBERT SCHWARZ, *Carnegie Institute of Technology*

The German Policy of Revolutionary France

A STUDY IN FRENCH DIPLOMACY DURING THE
WAR OF THE FIRST COALITION (1792-1797)

By SYDNEY SEYMOUR BIRO

France's policy toward Germany during the French Revolution was a veritable Cretan labyrinth of conflicting attitudes and problems. After more than twenty-five years of study and research, Sydney Seymour Biro here presents the only comprehensive work on this subject in any language. It will prove indispensable to all students of Franco-German relations during the Revolutionary period—and since.

Mr. Biro has spared no pains to ferret out all the available sources: his documentation is remarkable. His new materials lead to the correction of many errors of fact and interpretation; his account covers, in many respects, virgin territory.

Our scholarly readers tell us that this study surpasses in scope and detail and documentation any previous presentation. It is, moreover, an easy book to read, a difficult one to lay aside, for the sustained high literary quality of Mr. Biro's dramatic narrative never really flags.

To be published in January.

IMPORTANT OXFORD HISTORY TEXTS

**The Growth and Culture of Latin
America**

Published 1956

*By DONALD E. WORCESTER, University of Florida
and WENDELL G. SCHAEFFER, Public Administration
Service, Chicago*

This timely new history covers more than four-and-a-half centuries of Latin American culture from early discoveries and colonization to present-day struggles for independence and the rise of "indigenous nationalism." Using a broad approach, the authors have divided Latin American history into chronological periods based upon fundamental forces and internal developments. The chronological sections are introduced by essay chapters which cover periods in general terms, followed by chapters which group countries on the basis of similarities of development within the periods. The student is then prepared to take up the study of individual countries in their proper perspective. There are bibliographies, maps, and line drawings.

THE COLONIAL AMERICAN IN BRITAIN

By William L. Sachse

The story of the eastward attraction in the history of a people who have generally and increasingly been impelled toward the west. The fascinating account of six generations of American colonists who were hardy enough to regard the ocean as a thoroughfare rather than a barrier.

In these essays the reader interested in colonial Americana will find ample evidence of cultural affinities and of the mosaic background against which colonists had reluctantly to weigh the injustices of the Intolerable Acts. In the quotation and documentation the historian will find a wealth of manuscript material leading him to a surer assessment of the close economic and social relations between England and America.

302 pages. \$5.50.

GERMAN CULTURE IN AMERICA

By Henry A. Pochmann

The first comprehensive evaluation of Germanic influences on thought and art in America's cultural development. Professor Pochmann explores three aspects of Germanic influences in America—the philosophical, the educational, and the literary.

In Professor Pochmann's analysis of the impact of German thought on New England Transcendentalists, the St. Louis Hegelians, and the Concord School of Philosophy and in his treatment of the Germanic influence on individual poets, novelists, and critics of the nineteenth century, he has brought together a vast amount of scholarship, filling in areas hitherto unexplored, adding interpretations, and pointing out significances that can now be seen in better perspective.

THE AMERICAN HISTORICAL ASSOCIATION

Founded in 1884

Chartered by Congress in 1889

Principal Office

400 A St., S.E., Washington 3, D. C.

MEMBERSHIP: Persons interested in historical studies, whether professionally or otherwise, are invited to membership. Present membership ca. 6500.

MEETINGS: An annual meeting with a three-day program is held in the last days of each year. Election of officers is by ballot of the membership.

The Association maintains close relations with the state and local historical societies through conferences at the annual meetings. The Pacific Coast Branch holds meetings in December on the Pacific Coast and publishes the *Pacific Historical Review*.

PUBLICATIONS: In addition to the *Annual Report*, the Association publishes from time to time out of special funds important documentary collections in American political and legal history. Its official organ is the *American Historical Review*, published quarterly and sent to all members. It appoints a proportion of the members of the board of editors of *Social Education*, a journal on the social studies for secondary-school teachers.

PRIZES: The *Albert J. Beveridge Award*, given annually for the best manuscript in the history of the Western Hemisphere, has a cash value of \$1,000 and assurance of publication. Address inquiries to Professor Ralph W. Hidy, 55 Summer St., Forest Hills, N. Y.

The *Watumull Prize* of \$500, awarded biennially for a work on the history of India originally published in the United States (next award: December, 1956).

The *George Louis Neer Prize* of about \$200, awarded annually for a work upon any phase of European international history since 1895.

The *John H. Dunning Prize* of about \$140, awarded in the even-numbered years for a monograph on any subject relating to American history.

The *Herbert B. Adams Prize* of \$200, awarded in the even-numbered years for a work in the field of European history.

DUES: There is no initiation fee. Annual dues are \$7.50, students \$4.00. Life membership is \$150. All members receive the *American Historical Review* and the program of the annual meeting.

CORRESPONDENCE: Inquiries should be addressed to the Executive Secretary at 400 A St. S.E. Washington 3, D. C.

THE PRESENT IN PERSPECTIVE

A Look at the World Since 1945

by **HANS W. GATZKE** • *The Johns Hopkins University*

This short survey of world events since the close of World War II is designed primarily to supplement existing texts in European and American history or in Western civilization. It is thoroughly up to date, and the author has drawn upon the most recent works of scholars as well as upon important documents and memoirs. The approach is reportorial rather than interpretative, although events are fitted into the general stream of history and trends are indicated wherever they are clearly discernible.

EUROPE IN REVIEW

edited by

GEORGE L. MOSSE, RONDO E. CAMERON,
HENRY B. HILL, AND MICHAEL B. PETROVICH
University of Wisconsin

A comprehensive collection of readings and sources in European history since 1500, carefully chosen for clarity of illustration and a balanced treatment of all major periods. Many items on economic and cultural history are not readily available elsewhere. There is much material on Russia, both of the pre-Soviet and Soviet periods, as well as significant documents of the post-Stalin era.

Each chapter begins with a general introduction, and with each individual document is a note citing source and date. Questions are added after each chapter to help the student in understanding the documents and to give him an idea of what to look for while reading them. Maps and charts are integrated with the text.

THE SHAPING OF AMERICAN DIPLOMACY

edited, with commentary by

WILLIAM APPLEMAN WILLIAMS
University of Oregon

This one volume contains more than 100 readings and 200 key documents in American foreign policy from 1770 to 1955. It focuses on the background of a particular policy and the forces which shaped and influenced its adoption and execution. A wealth of excellent material, valuable as text, supplementary reader, or source book.

announces for Spring publication
a new edition of

Faulkner

American Political and Social History
(Seventh Edition)

First published in 1937, now going into its 33rd large printing, "Faulkner" has been the most widely used one-volume college text in American History.

Over these twenty years, frequent revisions have kept it abreast of new developments and the changing perspective on past movements and events. Unchanging, however, have been its outstanding merits of clear narration, dependable judgments, and sensible balance as among political, economic, and social factors.

In the new Seventh Edition, Professor Faulkner has reexamined every page for content and stylistic improvements. The organization is slightly changed, with 45 chapters instead of 43. The treatment is, of course, brought down to date.

A strikingly new format, involving complete resetting of type, includes marginal topical heads, more chapter subheads, and a simpler paragraph organization—all designed to keep the framework of chapters clear in the student's mind.

Twice as many maps (all new), new illustrations, and an expanded appendix of important documents and tables are other features. A revision of BROWN'S STUDENT MANUAL provides an effective workbook for Faulkner's Seventh Edition.

To be published in March

A HISTORY OF CIVILIZATION

THE STORY OF OUR HERITAGE

Volume I: Earliest Times to the Mid-Seventeenth Century

C. HAROLD KING, University of Miami

Volume II: The Mid-Seventeenth Century to Modern Times

ARTHUR J. MAY, University of Rochester

The many teachers who have examined this two-volume survey have overwhelmingly praised the continuity, the sense of proportion, the scope and precision of the scholarship, and the clarity and narrative flow of the text. The wealth of illustration in both volumes is outstanding in quality, while the charts, maps and diagrams are true aids to the understanding of complex events. The bibliographies have been carefully compiled with the needs of the beginning student uppermost in mind and utilize the finest of recent scholarship.

We will be delighted to show you this fine new set and to receive your comments on it at our display booth.

Volume II: *Maturity*

544 pages, \$6.00

McGRAW-HILL SERIES IN HISTORY

By ROBERT E. RIEGEL, Dartmouth College; and DAVID F. LONG, University of New Hampshire

Here is a vivid re-creation of the American story—a full and fascinating description of American life, its culture, its relationship with the rest of the world, and the personalities who have played a significant role in the growth of the United States since its discovery.

VOLUME I. YOUTH covers the period from early exploration to 1877. It carries the American story through the political reconstruction following the Civil War. The colonial period, in a relatively brief treatment, presents background material for later developments.

VOLUME II. MATURITY continues the national story of the United States from 1877 to the present. The basic trends are the development of an industrialized, urban, highspeed civilization and of increasing participation and leadership in world affairs. Separate Workbooks for each volume are now available.

ENGINEERING IN HISTORY

By RICHARD S. KIRBY, Yale University; SIDNEY WITHINGTON, ARTHUR B. DARLING, Phillips Andover School; and FREDERICK G. KILGOUR, Yale University. 544 pages, \$8.50

Traces the development of engineering as one of many human activities from about 6000 B.C. to the present. Correlating the viewpoint of the historian with that of the engineer, this unique work shows how various factors in the physical and cultural environment conditioned engineering advance, and conversely how engineering has affected other human activities including health, material welfare, and even life itself. Included is much new historical information, particularly about developments in the U.S.

MILITARY HERITAGE OF AMERICA

By R. ERNEST DUPUY, Colonel, U. S. A., Ret., and TREVOR N. DUPUY, Colonel, Artillery, U. S. A., Harvard University. McGraw-Hill Series in History. 784 pages, \$10.00 (text edition available)

A comprehensive history of American military strategy and tactics which combines analysis and description with readings from major military figures and military historians. Beginning with the colonial wars of the 18th Century, it covers American military history through the Korean War. It is the first American Military History text since 1937. Particular stress is laid on modern wars. The relationship of economic, political, and social factors to wars and military operations is emphasized throughout. Text material is supplemented with 130 maps.

Atlas of European History

Edited by **EDWARD W. FOX**
Cornell University

Assisted by **H. S. DEIGHTON**
Pembroke College, Oxford University

Designed specifically for classroom use, this new historical atlas will supplement courses in European History and the History of Western Civilization. Both historical and geographical facts and their relationship to one another are clearly shown by means of the precise and uncluttered maps. Physical base maps employing the new Oxford "molded relief" technique, and color shading give basic information. Political developments are presented on full-scale equivalent maps or by reduced scale inserts on the physical maps. This atlas represents an innovation in atlas making—it clearly presents to the teacher and student geographical facts and their relationship to history.
